

APPLICATION REQUIREMENTS

Annexation (Post-Petition)

REVIEW CRITERIA: 7.6.203: CONDITIONS FOR ANNEXATION:

- A. The area proposed to be annexed is a logical extension of the City's boundary;
- B. The development of the area proposed to be annexed will be beneficial to the City. Financial considerations, although important, are not the only criteria and shall not be the sole measure of benefit to the City;
- C. There is a projected available water surplus at the time of request;
- D. The existing and projected water facilities and/or wastewater facilities of the City are expected to be sufficient for the present and projected needs for the foreseeable future to serve all present users whether within or outside the corporate limits of the City;
- E. The annexation can be effected at the time the utilities are extended or at some time in the future;
- F. The City shall require as a condition of annexation the transfer of title to all ground water underlying the land proposed to be annexed. Should such ground water be separated from the land or otherwise be unavailable for transfer to the City, the City, at its discretion, may either refuse annexation or require payment commensurate with the value of such ground water as a condition of annexation. The value of such ground water shall be determined by the Utilities based on market conditions as presently exist;
- G. All rights of way or easements required by the Utilities necessary to serve the proposed annexation, to serve beyond the annexation, and for system integrity, shall be granted to the Utilities. Utilities, at the time of utility system development, shall determine such rights of way and easements; and
- H. If the proposed annexation to the City overlaps an existing service area of another utility, the applicant shall petition the PUC (Public Utilities Commission) or other governing authority to revise the service area such that the new service area will be contiguous to the new corporate boundary of the City.
